STATEMENT OF LISTING

This is to record that the researcher named below appears in the database "Updated science-wide author databases of standardized citation indicators" (2024 data-update, Career-long list), published in the Elsevier Data Repository.

NAME	Soda, Paolo
INSTITUTION	Università Campus Bio-Medico di Roma
COUNTRY / REGION	Italy
DATA VERSION	2024 · Career-long
SUB-FIELD	Artificial Intelligence & Image Processing

Rank in sub-field	#7,462 of 458,615 globally (top 1.63% in Artificial Intelligence & Image Processing)
Rank on the list	#209,706 of 230,333 on the list (2024 Career-long list)
Inclusion	within the top 2% of this sub-field
Composite score (c)	2.987 (incl. self-citations: 3.106)
Citations	2,465
h-index	26

VERIFICATION

QS5J-BD2R-XYBA

Notes and limitations

1. This statement is generated automatically from the public dataset cited above. It is not an award, an endorsement, or an evaluation of research quality, and it should not be used as a basis for hiring, promotion, funding or award decisions.
2. "Top 2%" refers to a relative position within a Science-Metrix sub-field, not to the top 2% of all researchers worldwide. Percentiles are computed against all researchers in the sub-field, including those who are not listed.
3. "Rank on the list" is the position among all researchers listed in that data version and list - across all sub-fields - ordered by the composite score excluding self-citations. It is a position within the published list, not a worldwide rank, and it is a different quantity from the sub-field percentile.
4. Institution names come from the researcher's most recent Scopus affiliation and may be out of date. The database has no author ID, so records that share a name and institution cannot always be told apart.
5. This site is not the creator of the underlying database and accepts no correction requests; to amend a Scopus profile use the Scopus-ORCID feedback wizard (orcid.scopusfeedback.com).
6. Verify the code above on this site to confirm that the figures match those recorded in the database.
